Soils Laboratory Policies

The following policies pertain to the dirty/soils lab located in Torrey Building.

All Person(s) working in the dirty/soils lab must wear proper Personal Protective Equipment at all times.

At any given time, there should only be one soil waste bucket in the lab. When the bucket is $\frac{3}{4}$ full, take it out to near the dumpsters and discard.

Do not put any contaminated soils in the soil waste bucket. It should be properly disposed of.

No chemicals in the soils lab. All chemical analyses are to be done in the clean lab.

Do not move balances from their designated areas.

No washing or rinsing materials (soils, roots, leaves, etc) in lab sinks. There are outdoor spicketts and hoses for large washing projects
