

Harvard Forest Data Archive HF441-03

Data File:

Name = hf441-03-otu-2010.csv

Description = operational taxonomic unit table 2010

Rows = 696 Columns = 40

MD5 checksum = 0d082f85ec41ab2f99ba018526cc02fa

Variables:

BC1 = number of sequences observed for the OTU in this sample
(dimensionless)
BC10 = number of sequences observed for the OTU in this sample
(dimensionless)
BC2 = number of sequences observed for the OTU in this sample
(dimensionless)
BC3 = number of sequences observed for the OTU in this sample
(dimensionless)
BC8 = number of sequences observed for the OTU in this sample
(dimensionless)
FL11 = number of sequences observed for the OTU in this sample
(dimensionless)
FL12 = number of sequences observed for the OTU in this sample
(dimensionless)
FL13 = number of sequences observed for the OTU in this sample
(dimensionless)
FL15 = number of sequences observed for the OTU in this sample
(dimensionless)
FL16 = number of sequences observed for the OTU in this sample
(dimensionless)
FL17 = number of sequences observed for the OTU in this sample
(dimensionless)
FL18 = number of sequences observed for the OTU in this sample
(dimensionless)
GA1 = number of sequences observed for the OTU in this sample
(dimensionless)
GA2 = number of sequences observed for the OTU in this sample
(dimensionless)
GA3 = number of sequences observed for the OTU in this sample
(dimensionless)
GA4 = number of sequences observed for the OTU in this sample
(dimensionless)
GA5 = number of sequences observed for the OTU in this sample
(dimensionless)
GA6 = number of sequences observed for the OTU in this sample
(dimensionless)
GA7 = number of sequences observed for the OTU in this sample
(dimensionless)
GA9 = number of sequences observed for the OTU in this sample
(dimensionless)

HF1 = number of sequences observed for the OTU in this sample
(dimensionless)

HF2 = number of sequences observed for the OTU in this sample
(dimensionless)

HF3 = number of sequences observed for the OTU in this sample
(dimensionless)

HF5 = number of sequences observed for the OTU in this sample
(dimensionless)

HF6 = number of sequences observed for the OTU in this sample
(dimensionless)

HF7 = number of sequences observed for the OTU in this sample
(dimensionless)

HF9 = number of sequences observed for the OTU in this sample
(dimensionless)

NL10 = number of sequences observed for the OTU in this sample
(dimensionless)

NL11 = number of sequences observed for the OTU in this sample
(dimensionless)

NL12 = number of sequences observed for the OTU in this sample
(dimensionless)

NL13 = number of sequences observed for the OTU in this sample
(dimensionless)

NL14 = number of sequences observed for the OTU in this sample
(dimensionless)

NL3 = number of sequences observed for the OTU in this sample
(dimensionless)

NL4 = number of sequences observed for the OTU in this sample
(dimensionless)

NL5 = number of sequences observed for the OTU in this sample
(dimensionless)

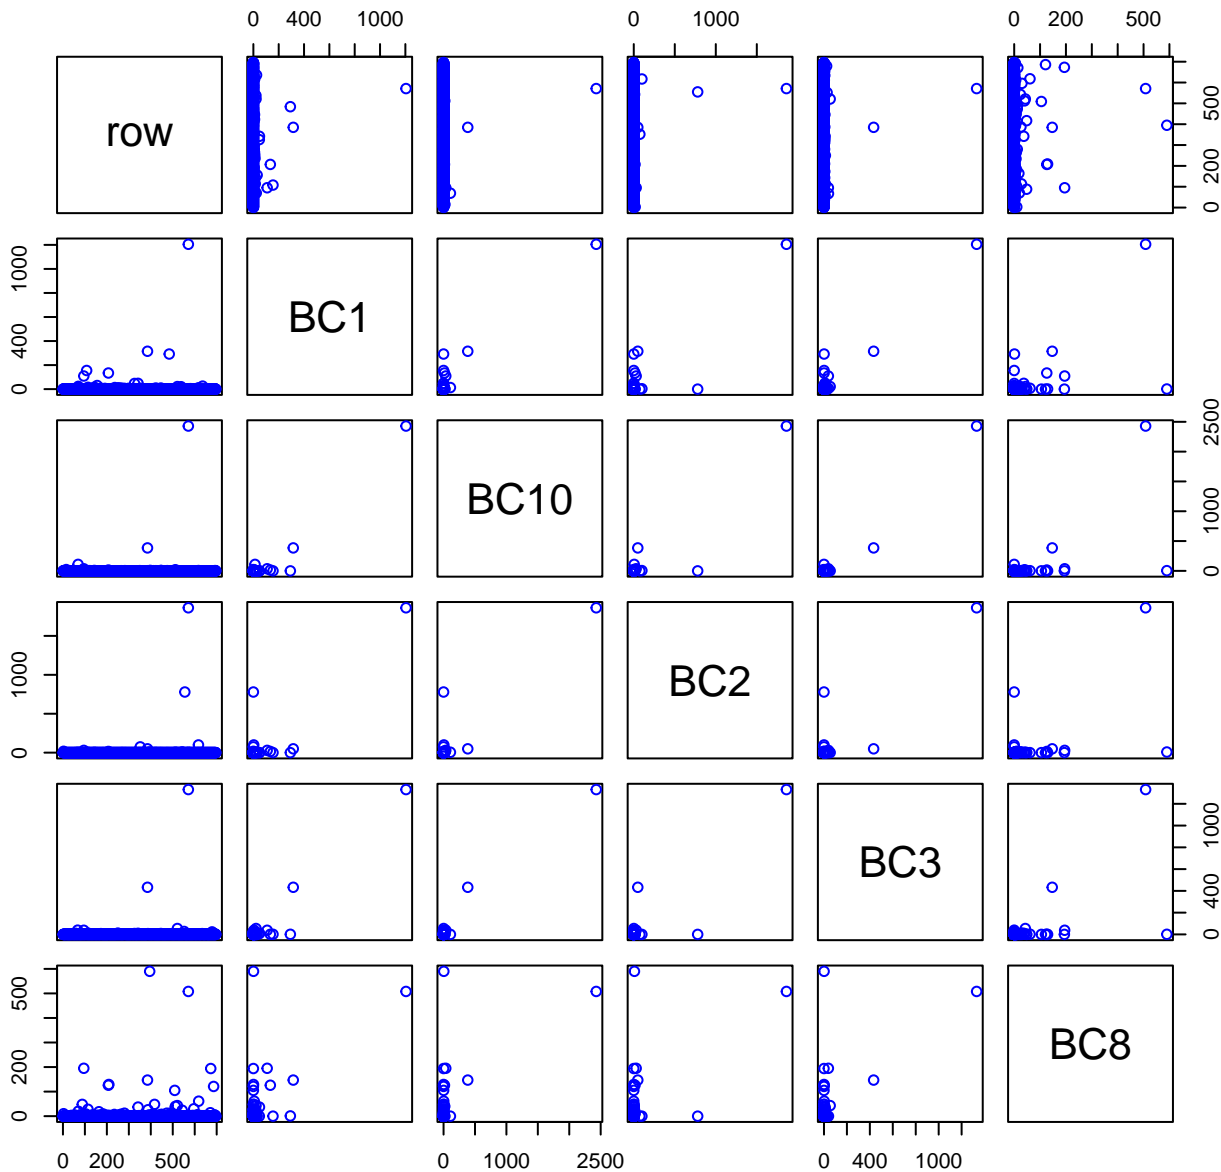

NL6 = number of sequences observed for the OTU in this sample
(dimensionless)

NL7 = number of sequences observed for the OTU in this sample
(dimensionless)

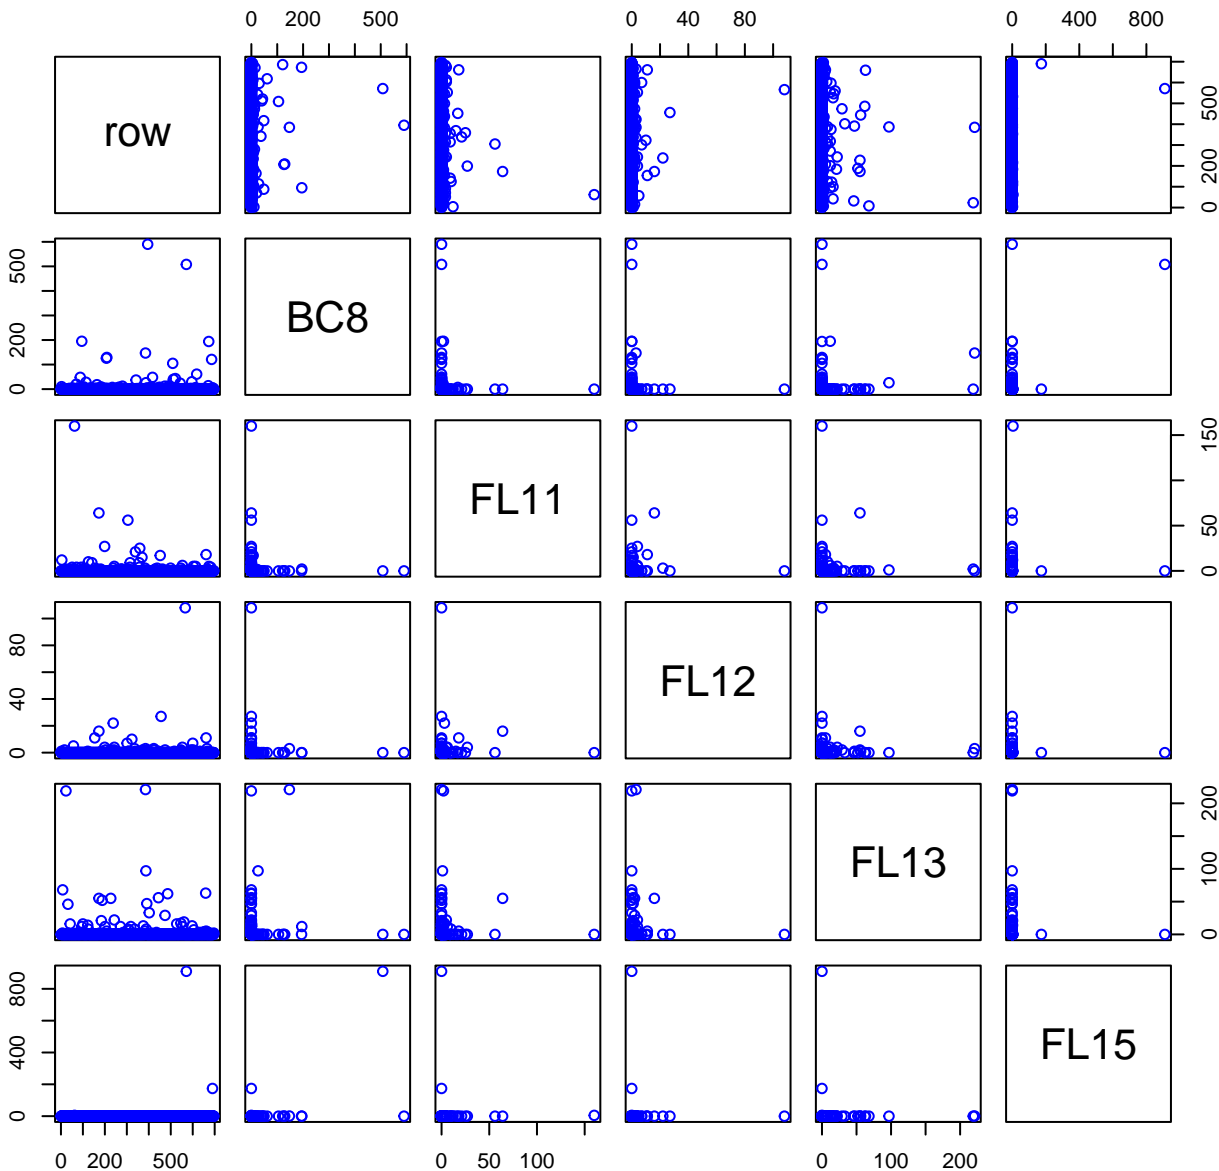

NL8 = number of sequences observed for the OTU in this sample
(dimensionless)
