

re-surveys in Massachusetts, for your consideration and approval.

After completing this work I again proceeded to Massachusetts and resumed my duties there.

In June, between the 5th and the 26th, I made a ^{topographical} re-survey of the South Lulit of Edgartown harbor, through Katama Beach, and of changes and additional topographical details at West Chop, on Martha's Vineyard. For the particulars of this work I would respectfully refer to my special reports on these respective surveys under dates of August — 1891
