Reproductive Biology

ERRATA

Vol. 93(11): 1660–1666. Ne'eman et al.—Limits to reproductive success of *Sarracenia purpurea* (Sarraceniaceae). The bumble bee visitors to *Sarracenia purpurea* were incorrectly identified as *Bombus affinis* Cresson. The two *Bombus* species observed visiting *S. purpurea* in the study population were *B. vagans* Smith and *B. bimaculatus* Cresson. The authors thank S. Colla (York University, Ontario) for questioning the identifications and R. Gegear (University of Massachusetts) for identifying the samples.
